SUMMARY

Final-year Programming and Web Development Technology diploma student pursuing a career in UI/UX, application and web development. Curious and collaborative, with a practical approach to learning new technologies and turning ideas into useful experiences.

EDUCATION

Digital College for Women in Riyadh | Technical and Vocational Training Corporation

Diploma in Programming and Web Development Technology | GPA: 4.58/5

January 2025 - Expected May 2027

PROJECT EXPERIENCE

MS SmartScan | AI-Assisted MRI Prototype | Patent Pending

- Designed the doctor-facing experience and built the scanner website and patient registry for a team prototype that flags potential MS lesions in brain MRI images.
- Contributed to the shared database, encryption and security as the project's UX, Web and Security Lead.

CASE 017 | VR Investigation Simulator

Tuwaiq Academy | Team Bootcamp Project | Completed September 2026

- Built the crime-scene environment for a team-developed VR investigation experience where users question AI-powered suspects.
- Developed a voice-controlled phone interaction using Meta Voice SDK, linking spoken suspect names to audio responses.
- Configured visual post-processing and storm effects; implemented a countdown timer, ambient audio and scene transitions.

Awn | Search-and-Rescue Device Concept | Graduation Project, In Progress

- Portable LoRa + GPS SOS device that shares location with rescue teams where there is no cellular coverage.
- SAIF finalist (Global Security & Innovation Exhibition and Competition); hackathon stage in progress.

COMPETITIONS AND ACHIEVEMENTS

Riyadah AI Hackathon | 1st Place, MS SmartScan Team | November 2026

Healthon Hackathon | Participant, MS SmartScan Team

Digital Apollo | SATHON 2 Satellite Signal Tracking Competition

3rd Place Team | Saudi Amateur Radio Society | May 2026

- Tracked satellites and received and decoded radio signals, including Morse code and SSTV images, with the Digital Apollo team.
- Documented the team's results and produced the YouTube video used to present and submit the project.

OTHER

Technical Skills

- Programming and web: HTML, Java, CSS, PHP, JavaScript, C# (Unity). Databases: SQL, PL/SQL.
- Design: UI/UX design and web interface development.
- Unity and VR/XR: Environment design, visual and audio effects, Meta Voice SDK, scene transitions.

Certifications and Technical Training

- Virtual Reality Development & Emerging Technologies Bootcamp | Tuwaiq Academy | 160 hours | September 2026.
- Database Programming with PLSQL | Oracle Academy | Course attendance certificate | May 2026.
- Cyber Threat Intelligence (CTI) | Tuwaiq Academy.
- Smooth Transition from Traditional Servers to Cloud Computing | Tuwaiq Academy | June 2025.
- ITE 7.01 - IT Essentials | Cisco Networking Academy | May 2025.
- Web Design Fundamentals | Tuwaiq Academy | March 2024.

Volunteer Experience

- Art Teacher | Community Development Association | July - August 2025. Led clay and creative art activities for children.
- Donation Sorting Assistant | Kiswa Farah Association | February - March 2024. Sorted and prepared donated clothing for distribution.
- Children's Activity Instructor | Afkar Association | July - August 2022. Planned and facilitated creative play activities for children.

Languages: Arabic, English (STEP: 87/100).
